Subject: Daily status report March 11, 2018, Pre-Remedial Design Investigation and Baseline Sampling, Portland Harbor Superfund Site
Attachments: [Daily Status Report Portland Harbor 20180411_SurfaceSed.docx](#)

Sean and Davis,

Attached is the daily report for the oversight of the sediment and bathymetric Wednesday. Representative photographs were emailed to you during the day yesterday. The sediment sampling will continue on two boats throughout the week and they bathymetric will continue with the use of the smaller survey vessel. We are planning to resume oversight on Friday of this week. Please contact me with any questions.

Thanks,

Howard S. Young, LG | CDM Smith
